

VIP - \$136.2 million

ON SCHEDULE

EPS will save **\$13.0 million (\$2.5 million State funds)** from FY 2004 baseline in FY 2005 on desktops, workstations, laptops, servers, printers, or peripherals with five companies (**Apple, Dell, Gateway, HP, and IBM**) through the annual Western States Contracting Alliance (WSCA) computer contract. (**\$52.0 million over FY 2005-2008 ER timeline**)

By Utilizing standard configurations coupled with a “bulk buy” through a reverse auction for a guaranteed number of units in May, we may be able to create even greater savings.

Note: All of these features (standard configurations, bulk buy and reverse auction) were included in the Efficiency Review Report.
